Hero Composition Matrix · Printable Construction Sheet

Each room receives a distinct cinematic hero, but the application UI remains authoritative. Hero media is adaptive, lazy-loaded and never allowed to block navigation.

Room	Hero	Camera	Focal	Lighting	Loop	Tier	Reduced motion
BACKYARD	Arrival Cinema	ARR-01	Front path + main door	Warm architectural practicals + sky	Slow atmospheric loop	Tier 1: still/fade; Tier 2: light motion; Tier 3: full loop	Reduced motion: fade
MAIN HALL	Main Hero	H-01	Main hall focal axis	Daylight skylight + practicals	Subtle dust/light/ambient motion	Tier 1-3	Reduced motion: still + fade
MAIN HALL	Discovery Hero	H-02	Discovery console	Directional daylight	Slow parallax	Tier 1-2	Reduced motion: static
MAIN HALL	Map Hero	H-04	Map surface	Neutral daylight	Very subtle map/glow motion	Tier 1-3	Reduced motion: static
LOGIN ROOM	Identity Hero	L-01	Login desk	Controlled warm practicals	Slow lamp/environment loop	Tier 1-2	Reduced motion: fade
REGISTER ROOM	Registration Hero	R-01	Registration desk	Soft daylight	Paper/light movement	Tier 1-2	Reduced motion: static
PROFILE SUITE	Profile Hero	P-01	Personal desk	Adaptive day/night lighting	Curtain/light/environment loop	Tier 1-2	Reduced motion: static
MARKET	Marketplace Hero	M-01	Marketplace focal wall	Bright neutral architectural lighting	Subtle moving light + environment	Tier 1-3	Reduced motion: static
MARKET	Map Hero	M-02	Map table	Neutral daylight	Map interaction glow only	Tier 1-3	Reduced motion: static
BROKER HQ	Broker Hero	B-01	Broker desk	Premium controlled lighting	Slow city/window ambience	Tier 1-3	Reduced motion: fade
BROKER HQ	Intelligence Hero	B-04	Intelligence map	Dark/premium lighting option	Map glow + restrained data motion	Tier 1-3	Reduced motion: static
OPERATIONS	Operations Hero	A-01	Operations console	Cool controlled lighting	Status-light loop	Tier 1-2	Reduced motion: static
REFERENCE	Government Hero	G-01	Reference desk	Natural daylight	Dust/light movement	Tier 1-2	Reduced motion: static
REFERENCE	Legal Hero	LGL-01	Document archive	Soft neutral lighting	Minimal ambient loop	Tier 1	Reduced motion: static

Hero Asset Contract

- Required: optimized hero media, poster/thumbnail, mobile fallback, reduced-motion fallback, loading placeholder, license/source metadata.
- Tier 1 = mobile-safe poster/static baseline.
- Tier 2 = optimized 3D/loop for normal desktop.
- Tier 3 = high-fidelity cinematic mode for capable hardware.
- 4K masters are source material, not the default delivery payload.
- Hero failure must never block route or HTML UI.
