Physical UI Object Contract · Printable Construction Sheet

3D objects represent application features. They never become a second source of truth. Every object must have a real UI equivalent and a non-3D fallback.

Object	Room	Route	Feature	Interaction	UI mount	Authority	Tier
■ Listing Book	PROFILE SUITE	profile.html	Create/manage property listing	open-panel	Listing form UI	api/data layer	Tier 1-2
■ Wanted Notebook	PROFILE SUITE	profile.html	Create/manage wanted request	open-panel	Wanted form UI	api/data layer	Tier 1-2
■■ Map Table	MARKET	market.html	Explore properties/wanted locations	pan/zoom/select	Map UI	map/data layer	Tier 1-3
■ Property Display Wall	MARKET	market.html	Browse discovered properties	select-card	Property cards/UI	data layer	Tier 1-2
■■ Filter Cabinet	MARKET	market.html	Filter and sort discovery	open-drawer	Filter controls	query/data layer	Tier 1
■ Property Dossier	MARKET	market.html	Inspect property details	open-dossier	Property detail UI	data layer	Tier 1-2
⚡■ Message Terminal	PROFILE SUITE	profile.html	Send/read messages	open-panel	Messaging UI	messaging layer	Tier 1-2
■ Contracts Folder	PROFILE SUITE	profile.html	Review contracts	open-panel	Contracts UI	contract/data layer	Tier 1
■ Saved Cabinet	PROFILE SUITE	profile.html	Saved properties/wanted	open-drawer	Saved-items UI	data layer	Tier 1
■ Review Ledger	PROFILE SUITE	profile.html	Review/rating interactions	open-panel	Review UI	review/data layer	Tier 1
■ Intelligence Wall	BROKER HQ	broker-hq.html	Broker map + discovered cards	select/expand	Broker intelligence UI	broker/data layer	Tier 1-3
■ Service Board	BROKER HQ	broker-hq.html	Manage service area/pins	open-panel	Broker controls	broker/data layer	Tier 1-2
■ Login Terminal	LOGIN ROOM	login.html	Authenticate user	focus/submit	Login form UI	auth layer	Tier 1
⚡■ Registration Desk	REGISTER ROOM	register.html	Create account	focus/submit	Registration form UI	auth layer	Tier 1
■ Profile Console	PROFILE SUITE	profile.html	Manage identity/account	open-panel	Profile UI	auth/profile layer	Tier 1
■■ Government Desk	REFERENCE	financing.html	View government/financing information	open-panel	Reference UI	content layer	Tier 1-2
■ Contact Desk	MAIN HALL	index.html	Contact/support entry	open-panel	Contact UI	contact layer	Tier 1

Universal Object Lifecycle

- Idle → Hover/Focus → Interaction Start → UI Open → Loading → Success/Error → Disabled
- 3D animation is cosmetic feedback and may be skipped under reduced motion.
- Keyboard/screen-reader UI remains available without 3D.
- Object state reflects application state; object state never owns application truth.
